

ARTURO ARIAS

(+51) 940 146 841 • arturo.arias001@gmail.com • <https://www.linkedin.com/in/arturoarias1/>

Data Analyst, BI Specialist, Data Scientist and Engineer. PCAP™ – Certified Associate Python Programmer and AI Products and Services Designer and Developer certified by MIT xPRO. Four years of professional experience, including research projects. Proficient in SQL, data visualization tools such as Power BI and Looker Studio, and data automation (ETL). Hands-on experience with Scrum. Passionate about STEM fields and highly interested in acquiring deeper knowledge in Artificial Intelligence.

Work Experience

RUMI DATA & TECH / INCARAIL

Specialized data consultancy based in Lima, Peru, focused on business intelligence, data analytics, and digital transformation. Provides high-level technological solutions to enable strategic decision-making. Employs a team of expert consultants and serves clients across multiple industries through advanced data processing and visualization services.

Business Intelligence Specialist

May 2025 – Present

BI Consultant engaged by Rumi to support strategic digital initiatives of Inca Rail, a passenger rail company operating luxury and tourist train services to Machu Picchu in Peru. Responsible for designing, developing, and maintaining BI dashboards, generating key performance indicators, and automating executive reports. Providing technical advisory and training to internal teams, proposing data-driven solutions to enhance decision-making.

- Develop and optimize interactive dashboards using Power BI and Microsoft Fabric, applying industry best practices to ensure performance, usability, and stakeholder value.
- Achieved a 92% reduction in dashboard file size and 90% faster refresh times, enhancing user experience and operational efficiency while reducing Microsoft Fabric capacity usage and associated costs.
- Design, implement and maintain data pipelines within Microsoft Fabric supporting structured, scalable, and reliable data flows for reporting and monitoring.
- Utilize Python (pyspark) notebooks in Fabric for workflow automation, preprocessing tasks, and integration with cloud-based datasets.
- Query and manipulate large-scale Google Analytics (GA4) datasets using BigQuery on Google Cloud Platform, ensuring reliable access to key business data.
- Provide BI support to the e-commerce, revenue, and UX teams at IncaRail, delivering high-quality dashboards aligned with ongoing digital and commercial strategies.
- Collaborate within a Scrum-based team, ensuring delivery of scalable and maintainable BI solutions.

AUNA

Leading integrated healthcare provider operating in Peru, Colombia, and Mexico. With a network of 31 healthcare facilities, it serves over 1.3 million plan members. Employs approximately 14,900 collaborators and reported revenues exceeding USD 1 billion in 2023.

Data Analyst

November 2024 – May 2025

Web analytics and data-driven strategies within the Growth Team (Digital Sales Area), with a focus on enhancing e-commerce conversion rates for sessions-to-leads and leads-to-affiliations. Collaborating with UX/UI designers, development teams (front-end and back-end), and data engineers to support strategic initiatives. Reporting to the Growth Leader. The team operates using Scrum.

- Automation of manual reporting processes through the creation of automated workflows using Python in Google Colab with a Google Cloud Service Account, reducing the required time by 95%. Integration of data from multiple sources through web scraping, later transitioning to direct data queries from the AWS data lake.
- Design and deployment of Power BI dashboards connected to AWS Athena, ensuring accurate and actionable insights while enabling stakeholders to efficiently track key performance metrics.

- Management and administration of Google Analytics 4 (GA4) and Google Tag Manager (GTM) accounts and properties, including the creation and maintenance of tags and triggers.
- Documentation of technical requirements (dataLayers) for developers and QA testing in staging environments prior to production.
- Reporting and summarization of daily, weekly, and monthly performance metrics for e-commerce platforms (Oncosalud and Auna Salud) and healthcare services.
- User behavior analysis through tools such as Microsoft Clarity, Hotjar, and AB Tasty, offering actionable feedback to enhance UX/UI design.
- Interdisciplinary collaboration with multiple teams, including Design, Web Development, Data, Marketing, etc.
- Ongoing projects: Developing a projection model for predicting leads and affiliations. Building a Data Analytics GPT to further automate reporting and analysis workflows.

ALICORP

Industry leader in the food sector in Peru. With presence in various countries across America. With sales of S/ 1.79 billion and more than 4000 employees. A member of Grupo Romero.

Researcher

May 2021 – March 2024

Leadership in research projects (processes, products, health, and nutrition). Support for Technological Development and Regulatory Affairs. Reporting to the Research and Regulatory Affairs Manager.

- Automation of Nutritional Data Analysis through graphical indices, achieved by:
 - Desktop application developed in Python using libraries such as Pandas, Tkinter, Matplotlib and Numpy, as well as Pyinstaller to create the executable file.
 - Web application developed using Python and Django, deployed on Microsoft Azure.
- Providing AI tools training to the Technological Development team.
- Innovation initiative to streamline sensory team workflows through by automating sensory test data analysis and implementing of AI tools to expedite profile evaluations.
- Award recognition from Pontificia Universidad Catolica del Peru for two collaborative projects.
- Publication of one article in WJFST, and two articles in the journal 'Industria Alimentaria'.
- Interdisciplinary collaboration with multiple departments, including Innovation, Product Development, Quality, Process Engineering, Marketing, Payments, and Data Analysis.

Awards

- Winner of the Poddar Award for Rising Chemical Engineers 2023 (awarded by AIChE).
- 1st place in the 2019 AIChE ChemE Jeopardy Competition.
- AIChE Outstanding Student Chapter Award (2018-2019).
- Winning project at the 2017-1 fair at UTEC. Development of a mobile application using Swift 3.

Conferences

- AIChE Annual Meeting 2023 (Orlando, FL).
- AIChE Annual Student Conference 2018 (Pittsburgh, PA) and 2019 (Orlando, FL).
- TECHSUYO 2023 – Solving challenges like in Silicon Valley (Arequipa, Peru).
- PROCESA 2019 (Medellin, Colombia) and 2022 (Lima, Peru). Moderator at PROCESA 2022.
- Chemical Engineering Week 2022 (hosted by AIChE Peru) – Speaker at the opening ceremony.
- XXV COLAEIQ 2019 (San José, Costa Rica) - Deputy Delegate for Peru.

Knowledge

- Languages: Spanish (native), English (TOEFL: 109), Italian (basic), and German (basic)
- PCAP™ – Certified Associate Python Programmer.
- Certified Data Analyst. Data Analysis and Visualization with Python (NumPy, Pandas, Matplotlib, Seaborn)
- Power BI (DAX), Looker Studio.
- Machine Learning with Scikit-learn. AI products development.
- Intermediate SQL (HackerRank certified). T-SQL and PostgreSQL. Server Management Studio.
- AWS Athena, BigQuery (Google Cloud Platform), Microsoft Fabric. Experience with Azure.

- Software Design: RUP, UML. Web Development: Django and WordPress.
 - Agile Methodologies: Scrum.
 - Web Analytics: Google Analytics (GA4), Google Tag Manager, Hotjar, Microsoft Clarity.
 - A/B Tests: AB Tasty.
 - Corel, Photoshop, After Effects, Cinema 4D, Premiere, Canva, CapCut.
-

Education

MASTER OF INFORMATION SYSTEMS MANAGEMENT – BI & DA

Carnegie Mellon University, Pittsburgh, PA, USA, 2026

DATA SCIENCE

Data Science Research Peru, Lima, Peru, 2025

CHEMICAL ENGINEERING

Universidad de Ingenieria y Tecnologia – UTEC, Lima, Peru, 2019

Professional Training

- Specialization in Data Analysis, Data Science Research Peru, Online, 2024.
 - Designing and Building AI Products and Services, MIT xPRO, Online, 2024.
 - Google Cloud Big Data and Machine Learning Fundamentals, Google (edX), Online, 2023.
 - Communication in Science, Technology, and Innovation, Posgrado UTEC, Lima, Peru, 2023.
-

Other Activities

- Freelance in the educational field. Automation for the generation of classes documents using OpenAI API (2023).
- Mentor in the UTEC Career Mentoring program (2021-present).
- Support to 3D printing family startup by 3D modeling.
- Python teacher.
