aaarias@andrew.cmu.edu | <https://www.linkedin.com/in/arturoarias1/> | arturoarias.me

EDUCATION

Carnegie Mellon University, Heinz College, Pittsburgh, PA **Expected 12/2026**
Master of Information Systems Management – Business Intelligence and Data Analytics (MISM-BIDA)
Coursework: Database Management, Business Analytics, Statistics, Unstructured Data Analytics, Econometrics

Universidad de Ingenieria y Tecnologia – UTEC, Lima, Peru **04/2015 – 08/2020**
Bachelor of Chemical Engineering
Coursework: Process Control, Modeling and Simulation, Software Design, Programming, Chemical Process Analysis

SKILLS AND CERTIFICATIONS

Business Intelligence and Data Analytics: Data Analysis, Data Visualization, Dashboard Development, Data Storytelling, Market Intelligence, Power BI, DAX, Tableau, Looker Studio, Statistical Analysis, Regression, Causal Inference, Microsoft Excel

Programming and Data Manipulation: Python, Java, SQL, Pandas, NumPy, Matplotlib, Seaborn, Regular Expressions

Data Engineering and Cloud Platforms: ETL/ELT Pipelines, Data Modeling, Data Processing, Relational Databases, NoSQL Databases, Amazon Web Services (AWS), Google Cloud Platform (GCP), Microsoft Azure

Web Analytics and Experimentation: Google Analytics (GA4), Google Tag Manager (GTM), A/B Testing, AB Tasty, Microsoft Clarity, Hotjar

Professional Skills: Analytical Problem-Solving, Cross-functional Collaboration, Attention to Detail, Decision Making

Certifications: Certified Associate Python Programmer, Designing and Building AI Products and Services (MIT xPRO)

Languages: Spanish (native), English (professional), German (A2), Italian (basic)

WORK EXPERIENCE

Independent / Incarail, Lima, Peru **05/2025 – 08/2025**
Business Intelligence Specialist Consultant

- **Business Intelligence | Data Visualization:** Engineered Power BI dashboards on Microsoft Fabric, delivering e-commerce sales and web performance insights
- **BI Performance Optimization | Microsoft Fabric:** Streamlined Microsoft Fabric dashboards; reduced file size by 92% and the refresh processing time by 90%, improving the user experience (UX) and lowering capacity costs
- **Data Engineering | ETL/ELT Pipelines:** Devised and refined Fabric pipelines that centralized sources, streamlined transformations, and ensured availability for reporting and analytics
- **Python (PySpark) | Data Automation:** Automated Optical Character Recognition (OCR) workflows for PDFs in Fabric using PySpark in Python, eliminating manual effort and accelerating reporting
- **SQL | Query Optimization:** Optimized BigQuery queries and partitions, reducing execution time by 80%+ and lowering compute spend

Oncosalud, Lima, Peru **11/2024 – 05/2025**
Data Analyst

- **Data Engineering | Python | SQL:** Centralized and integrated Google Analytics (GA4), leads, and affiliation data in Amazon Web Services (AWS), enabling scalable and reliable analytics; automated multi-source reporting, reducing data processing time by 95%
- **Business Intelligence | Data Visualization:** Developed and deployed AWS Athena-connected Power BI dashboards to deliver unified daily/weekly/monthly performance views
- **Web Analytics | Data Instrumentation:** Administered Google Analytics (GA4) and Google Tag Manager (GTM), closing tracking gaps and ensuring accurate, governed data collection
- **Statistical Analysis | Experimentation (A/B Testing):** Analyzed funnel performance with Microsoft Clarity, Hotjar, and AB Tasty, quantifying impact on UX, leads, and affiliations

Alicorp, Lima, Peru **05/2021 – 03/2024**
Researcher

- **Data Analysis | Python:** Spearheaded nutritional analytics workflows in Python, developing comparative indices to assess and benchmark performance
- **Data Visualization | Data Storytelling:** Produced executive-level visualizations that translated analytical findings into actionable business recommendations
