Carnegie Mellon University, Heinz College, Pittsburgh, PA **Expected 12/2026**
Master of Information Systems Management – Business Intelligence and Data Analytics (MISM-BIDA)
Coursework: Financial Investing, Accounting and Finance Analytics, Econometrics, Business Analytics, Statistics

Universidad de Ingenieria y Tecnologia – UTEC, Lima, Peru **04/2015 – 08/2020**
Bachelor of Chemical Engineering
Coursework: Process Control, Modeling and Simulation, Software Design, Programming, Chemical Process Analysis

SKILLS AND CERTIFICATIONS

Finance and Quantitative Analysis: Financial Analysis, Valuation (NPV, IRR), Fundamental Analysis, Ratio Analysis, Quantitative Analysis, Backtesting Strategies, Trend and Seasonality Analysis, Technical Analysis

Data Analytics and Business Intelligence: Data Analysis, Data Visualization, Dashboard Development, Data Storytelling, Power BI, Tableau, Looker Studio

Programming and Data: Python, SQL, Pandas, NumPy, Data Processing, Yahoo Finance (yfinance)

Statistical and Time Series Methods: Statistical Analysis, Hypothesis Testing, Regression, Time Series Analysis, Econometrics, Causal Inference, Machine Learning

Data Engineering and Platforms: ETL/ELT Pipelines, Data Modeling, Amazon Web Services (AWS), Microsoft Azure

Core Professional Skills: Analytical Problem-Solving, Attention to Detail, Decision Making, Cross-functional Collaboration

Certifications: Certified Associate Python Programmer, Designing and Building AI Products and Services (MIT xPRO)

Languages: Spanish (native), English (professional), German (A2), Italian (basic)

WORK EXPERIENCE

Independent / Incarail, Lima, Peru **05/2025 – 08/2025**
Business Intelligence Specialist Consultant

- **Business Intelligence | Financial Data Analysis:** Engineered Power BI dashboards on Microsoft Fabric, insights on sales performance and revenue drivers
- **Performance Analysis | Cost Optimization:** Streamlined Microsoft Fabric dashboards; reduced file size by 92% and the refresh processing time by 90%, improving the user experience (UX) and lowering capacity costs
- **Data Engineering | Financial Data Processing:** Devised and refined Fabric pipelines that centralized sources, streamlined transformations, and ensured availability for analytics
- **Python (PySpark) | Data Analysis:** Automated Optical Character Recognition (OCR) workflows for PDFs in Fabric using PySpark in Python, eliminating manual effort and accelerating reporting
- **SQL | Query Optimization:** Optimized BigQuery queries and partitions, reducing execution time by 80%+ and lowering compute spend

Oncosalud, Lima, Peru **11/2024 – 05/2025**
Data Analyst

- **Data Analysis | Python | SQL:** Centralized and integrated Google Analytics (GA4), leads, and affiliation data in Amazon Web Services (AWS), enabling scalable financial and performance analysis; automated multi-source reporting, reducing data processing time by 95%
- **Business Intelligence | Financial Reporting:** Developed and deployed AWS Athena-connected Power BI dashboards to deliver unified daily/weekly/monthly performance views
- **Data Quality | Data Validation:** Administered Google Analytics (GA4) and Google Tag Manager (GTM), closing tracking gaps and ensuring accurate, governed data collection
- **Statistical Analysis | Performance Analysis:** Analyzed funnel performance with Microsoft Clarity, Hotjar, and AB Tasty, quantifying impact on UX, leads, and affiliations

Alicorp, Lima, Peru **05/2021 – 03/2024**
Researcher

- **Python | Statistical Analysis:** Spearheaded nutritional analytics workflows in Python, introducing comparative indices to assess and benchmark performance
- **Data Visualization | Data Storytelling:** Produced executive-level visualizations that translated analytical findings into actionable business recommendations
