aaarias@andrew.cmu.edu | <https://www.linkedin.com/in/arturoarias1/> | arturoarias.me

EDUCATION

Carnegie Mellon University, Heinz College, Pittsburgh, PA **Expected 12/2026**
Master of Information Systems Management – Business Intelligence and Data Analytics (MISM-BIDA)
Coursework: Econometrics, Business Analytics, Statistics, Machine Learning, Financial Investing, Artificial Intelligence

Universidad de Ingenieria y Tecnologia – UTEC, Lima, Peru **04/2015 – 08/2020**
Bachelor of Chemical Engineering
Coursework: Process Control, Modeling and Simulation, Software Design, Programming, Chemical Process Analysis

SKILLS AND CERTIFICATIONS

Programming and Machine Learning: Python, SQL, Java, Statistical Analysis, R, PyTorch, TensorFlow, Scikit-learn

Data Engineering and Architecture: ETL/ELT Data Pipelines, Data Processing, Data Modeling, Databases

Data Analytics, Business Intelligence and Product: Power BI, Looker Studio, Data Storytelling, Web Analytics (Google Analytics 4, Google Tag Manager), Experimentation and UX (Microsoft Clarity, Hotjar, AB Tasty), Tableau

Cloud and Data Platforms: Microsoft Fabric, Azure, Amazon Web Services, Amazon Athena, Google Cloud, BigQuery

Delivery and Collaboration: GitHub, CI/CD pipelines, Scrum

Core Professional Skills: Analytical Problem-Solving, Cross-functional Collaboration, Learning Agility, Adaptability, Time Management, Attention to Detail

Certifications: Certified Associate Python Programmer (PCAP), Designing and Building AI Products and Services (MIT xPRO), Data Science Specialization

Languages: Spanish (native), English (professional), German (A2), Italian (basic)

WORK EXPERIENCE

Independent / Incarail, Lima, Peru **05/2025 – 08/2025**
Business Intelligence Specialist Consultant

- **Data Visualization | Business Intelligence:** Engineered Power BI dashboards on Microsoft Fabric, delivering e-commerce sales and web performance insights
- **Performance Optimization | Cloud Data Platforms:** Streamlined Microsoft Fabric dashboards; reduced file size by 92% and the refresh processing time by 90%, improving the user experience (UX) and lowering capacity costs
- **ETL/ELT and Data Pipelines | Data Modeling:** Devised and refined Fabric pipelines that centralized sources, streamlined transformations, and ensured availability for analytics
- **Python (PySpark) | Data Processing:** Automated Optical Character Recognition (OCR) workflows for PDFs in Fabric using PySpark in Python, eliminating manual effort and accelerating reporting
- **SQL | Query Optimization:** Optimized BigQuery queries and partitions, reducing execution time by 80%+ and lowering compute spend

Oncosalud, Lima, Peru **11/2024 – 05/2025**
Data Analyst

- **Python | SQL | Data Architecture:** Centralized and integrated Google Analytics (GA4), leads, and affiliation data in Amazon Web Services (AWS), enabling scalable and reliable analytics; automated multi-source reporting, reducing data processing time by 95%
- **Data Visualization | Business Intelligence:** Developed and deployed AWS Athena-connected Power BI dashboards to deliver unified daily/weekly/monthly performance views
- **Analytics Instrumentation | Debugging/Troubleshooting:** Administered Google Analytics (GA4) and Google Tag Manager (GTM), closing tracking gaps and ensuring accurate, governed data collection
- **Statistical Analysis | Analytical Problem-Solving:** Analyzed funnel performance with Microsoft Clarity, Hotjar, and AB Tasty, quantifying impact on UX, leads, and affiliations

Alicorp, Lima, Peru **05/2021 – 03/2024**
Researcher

- **Python | Statistical Analysis:** Spearheaded nutritional analytics workflows in Python, introducing comparative indices to assess and benchmark performance
- **Data Visualization | Data Storytelling:** Produced executive-level visualizations that translated analytical findings into actionable business recommendations
