aaarias@andrew.cmu.edu | <https://www.linkedin.com/in/arturoarias1/> | arturoarias.me

EDUCATION

Carnegie Mellon University, Heinz College, Pittsburgh, PA **Expected 12/2026**
Master of Information Systems Management – Business Intelligence and Data Analytics (MISM-BIDA)
Coursework: Object-Oriented Programming in Java, Database Management, Data-Focused Python, Artificial Intelligence

Universidad de Ingenieria y Tecnologia – UTEC, Lima, Peru **04/2015 – 08/2020**
Bachelor of Chemical Engineering
Coursework: Process Control, Modeling and Simulation, Software Design, Programming, Chemical Process Analysis

SKILLS AND CERTIFICATIONS

Programming Languages and Paradigms: Python, Java, C++, JavaScript, Object-Oriented Programming
Software Development and Engineering: Software Engineering, Software Development, Distributed Systems, Parallel Computing, System Design, AI System Lifecycle
Web Development and Frameworks: HTML, CSS, Django, Web Development, REST APIs
Databases and Data Management: SQL, Relational Databases, NoSQL Databases, Database Design, Data Modeling
Tools and DevOps: GitHub, CI/CD Pipelines, Visual Studio Code, Cursor, Codex, Antigravity, Scrum
Core Professional Skills: Analytical Problem-Solving, Attention to Detail, Cross-functional Collaboration, Adaptability, Learning Agility, Decision Making, Leading Teams
Certifications: Certified Associate Python Programmer (PCAP), Designing and Building AI Products and Services (MIT xPRO), Data Science Specialization
Languages: Spanish (native), English (professional), German (A2), Italian (basic)

WORK EXPERIENCE

Independent / Incarail, Lima, Peru **05/2025 – 08/2025**
Business Intelligence Specialist Consultant

- **Software Development | Data Visualization** Engineered Power BI dashboards on Microsoft Fabric, delivering e-commerce sales and web performance insights
- **Performance Optimization | Cloud Systems:** Streamlined Microsoft Fabric dashboards; reduced file size by 92% and the refresh processing time by 90%, improving the user experience (UX) and lowering capacity costs
- **Backend Development | Data Pipelines** Devised and refined Fabric pipelines that centralized sources, streamlined transformations, and ensured reliable data availability across systems
- **Python (PySpark) | Backend Development:** Automated Optical Character Recognition (OCR) workflows for PDFs in Fabric using PySpark in Python, eliminating manual effort and accelerating reporting
- **SQL | Performance Optimization:** Optimized BigQuery queries and partitions, reducing execution time by 80%+ and lowering compute spend

Oncosalud, Lima, Peru **11/2024 – 05/2025**
Data Analyst

- **Backend Development | Python | SQL:** Centralized and integrated Google Analytics (GA4), leads, and affiliation data in Amazon Web Services (AWS), enabling scalable and reliable analytics; automated multi-source reporting, reducing data processing time by 95%
- **Software Development | Data Visualization:** Developed and deployed AWS Athena-connected Power BI dashboards to deliver unified daily/weekly/monthly performance views
- **Debugging | System Integration:** Administered Google Analytics (GA4) and Google Tag Manager (GTM), closing tracking gaps and ensuring accurate, governed data collection
- **Data Processing | Problem Solving:** Analyzed funnel performance with Microsoft Clarity, Hotjar, and AB Tasty, quantifying impact on UX, leads, and affiliations

Alicorp, Lima, Peru **05/2021 – 03/2024**
Researcher

- **Software Development | Python:** Spearheaded nutritional analytics workflows in Python, introducing comparative indices to assess and benchmark performance
- **Data Visualization | Reporting:** Produced executive-level visualizations that translated analytical findings into actionable business recommendations
